## JB Tracker Certificate on SF Property Securities Fund CH - S

(the "Products")

### Participation on Fund – Dividend Reinvestment – CHF – Open Ended – Cash Settlement

*The Product may not be offered, sold or otherwise distributed in or from Switzerland/EU except to Qualified Investors.*

This document is for information purposes only.

A Product does not constitute a collective investment scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes. Therefore, it is not subject to authorisation by the Swiss Financial Market Supervisory Authority FINMA ("FINMA") and potential investors do not benefit from the specific investor protection provided under the CISA and are exposed to the credit risk of the Issuer.

### I. Product Description

#### Terms

<b>Swiss Security Number (Valor)</b>	32260820
<b>ISIN</b>	CH0322608206
<b>Symbol</b>	DAACJB
<b>Issue Size</b>	up to 2'500 Products (CHF 25'000'000) (may be increased/decreased at any time)
<b>Subscription Period</b>	20 June 2017 – 30 October 2017, 10:00 CET
<b>Issue Currency</b>	CHF
<b>Issue Price</b>	CHF 10,000 (per Product)
<b>Denomination</b>	CHF 10,000
<b>Initial Fixing Date</b>	<b>31 October 2017</b> , being the date on which the Initial Level and the Relevant Number are fixed.
<b>Issue Date/Payment Date</b>	<b>07 November 2017</b> , being the date on which the Products are issued and the Issue Price is paid.
<b>Final Fixing Date</b>	The Call Date or the relevant Put Date, as applicable.

#### Last Trading Date

The Call Date or the relevant Put Date, as applicable, until the official close of trading on the SIX Swiss Exchange, being the last date on which the Products may be traded.

#### Final Redemption Date

The date that is five Business Days after the earlier of (x), in respect to all Products, the Call Date on which the Issuer has exercised its Issuer Call Option or (y), in respect to a particular Product, the Put Date on which the Holder of such Product has exercised its Holder Put Option.

#### Issuer Call Option

Unless previously redeemed, repurchased or cancelled, on any Call Date the Issuer may exercise its right to redeem the Products, subject to a one-month notice on the last trading day of the month, in whole but not in part, on the applicable Final Redemption Date at the Final Redemption Amount per Product by notifying the Holders of such exercise on or prior to such Call Date; provided, however, that any outstanding Products that are subject to a Holder Put Option exercised prior to such Call Date shall be excluded.

#### Holder Put Option

Unless previously redeemed, repurchased or cancelled, on any Put Date the Holder of any Product may exercise, subject to a one-month notice on the last trading day of the month, its right to require the Issuer to redeem such Product on the applicable Final Redemption Date at the Final Redemption Amount by delivering an Exercise Notice to the Paying Agent on or prior to such Put Date.

**Call Date(s)**

Any Business Day on or after the Issue Date, subject to a one-month notice on the last trading day of the month, being the dates on which the Issuer may exercise its right to redeem each Product on the applicable Final Redemption Date at the Final Redemption Amount.

**Put Date(s)**

Any Business Day on or after the Issue Date and prior to the Call Date on which the Issuer exercises the Issuer Call Option, subject to a one-month notice on the last trading day of the month, being the dates on which any Holder may exercise its right to require the Issuer to redeem any Product held by such Holder on the applicable Final Redemption Date at the Final Redemption Amount.

**Exercise Notice**

With respect to any Product(s), a notice in a form satisfactory to the Paying Agent exercising the Holder Put Option with respect to such Product(s).

**Underlying**

Underlying	Bloomberg Symbol	ISIN	Management Company	Initial Level (NAV plus Transaction Fee)	Relevant Number on Initial Fixing Date
SF Property Securities Fund CH - S	SFPRSES SW Equity	CH0271282300	Swiss Finance & Property Funds AG	CHF 113.94	87.7655

**Redemption**

**Final Redemption** Unless previously redeemed, repurchased or cancelled, the Issuer shall redeem each Product on the Final Redemption Date by payment of a cash amount equal to the Final Redemption Amount to the holder thereof.

**Final Redemption Amount** A cash amount equal to the product of (a) the Selling Price and (b) the Relevant Number, minus the accrued fees, as determined by the Calculation Agent in accordance with the following formula:

$$\text{Relevant Number} \times \text{Selling Price} - \text{Accrued Fees}$$

<b>Settlement Type</b>	Cash settlement
<b>Fund Interest Price</b>	in respect of a Fund, on any Scheduled Trading Day, the net asset value per Fund Interest, as if the subscribing or the redemption of the Fund Interest would be required, as calculated and published by, or on behalf of, the Management Company on such day.
<b>Fund Interest</b>	In respect of a Fund, a share in such Fund or, if interests in such Fund are not denominated as shares, a unit of ownership in such Fund.
<b>Selling Price</b>	The Fund Interest Price on the Final Fixing Date of the Relevant Number of the Underlying as of the Final Fixing Date, as determined by the Calculation Agent.
<b>Relevant Number</b>	with respect to the Underlying, the number of Fund Interest per Certificate on the Final Fixing Date, as determined by the Calculation Agent based on the number specified in the table above and as may be adjusted due to the Reinvested Dividend Payments during the term of the Products by the Calculation Agent.
<b>Reinvested Dividend Payments</b>	All net-dividends (deducting possible taxes or other charges) with respect to the Underlying, paid during the term of the Products will be reinvested in the Underlying and the Relevant Number of the Underlying will be adjusted by the Calculation Agent.
<b>Final Level</b>	the Selling Price
<b>Accrued Fees</b>	0.3% p.a. of the Denomination. The accrued fees will be calculated by the Calculation Agent from Initial Fixing Date to the current date. These will be deducted from the value of the Underlying.

**Details**

<b>Issuer</b>	Bank Julius Baer & Co. Ltd., Guernsey Branch (Rating: Moody's A2) (Prudential Supervision: by the Swiss Financial Market Supervisory Authority FINMA)
---------------	---

<b>Lead Manager</b>	Bank Julius Baer & Co. Ltd., Zurich
<b>Risk Category</b>	Complex Product
<b>Product Category</b>	Participation
<b>Product Type</b>	Tracker Certificate
<b>SSPA Code</b>	1300
<b>Calculation Agent</b>	Bank Julius Baer & Co. Ltd., Zurich and any agents or other persons acting on behalf of such Calculation Agent and any successor appointed by the Issuer

<b>Trading (Secondary Market)</b>	Under normal market conditions, Bank Julius Baer & Co. Ltd. Zurich will endeavour to provide a secondary market, but is under no legal obligation to do so.
<b>Quotation</b>	The Products are traded in units and are booked accordingly.
<b>Clearing System</b>	SIX SIS AG
<b>Form</b>	Uncertificated Securities
<b>Governing Law / Jurisdiction</b>	Swiss Law / Zurich 1, Switzerland

#### Swiss Taxation

<b>Stamp duty</b>	No stamp duty at issuance. Issuance and secondary market transactions are in principle subject to the Federal Turnover Tax ("Umsatzabgabe") if a securities dealer ("Effekthändler"), as defined in the Swiss Federal Act on Stamp Duties ("Stempelabgabengesetz"), is a party to the transaction or acts as an intermediary thereto.
<b>Withholding tax</b>	No Swiss withholding tax.
<b>Income tax</b>	For private investors (individuals) with tax residence in Switzerland, the Product is treated like a unit of a collective investment scheme. The Issuer informs the Swiss Federal Tax Administration about the capital gains/losses and the earnings on the assets on an annual basis. Only the declared net earnings on the assets are subject to income tax.

The aforementioned tax description is based on the relevant tax laws and regulations of the tax authorities valid at the time of launch of this issue. These laws and regulations may change at any time, possibly with retroactive effect. Furthermore the tax treatment may depend on the personal situation of the investor and may be subject to change in the future. This information is not purported to be a complete description of all potential tax effects. Potential investors are advised to consult their tax advisors to determine the special tax consequences of the purchase, ownership or disposition of the Product.

#### General Tax Information

Transactions and payments related to this product may be subject to additional (foreign) transaction taxes and or withholding taxes such as US withholding taxes pursuant to FATCA (Foreign Account Tax Compliance Act) or the Section 871(m) of the US Internal Revenue Code. Any amounts due, shall be paid net of such taxes. The issuer is not obliged to pay additional amounts with regard to amounts so withheld.

#### Product Description

The Products are financial instruments which allow the investor to benefit from an unlimited participation in any positive performance of the Underlying. The Products reflect movements in the value of the Underlying. Therefore, if the value of the Underlying increases, the investor proportionally participates in the increase in the value of the Underlying. If the value of the Underlying decreases, the investor proportionally participates in the decrease in the value of the Underlying.

The Products are linked to a single Fund.

All net-dividends of the Underlying paid during the term of the Products will be fully reinvested in the Underlying after deduction of any applicable possible taxes or other charges. The Relevant Number of the Underlying will be adjusted accordingly.

The Products are open-ended which means that they do not have a fixed maturity date. Instead, such Products provide for an investor a termination right (Holder Put Option) and for the Issuer an Issuer termination right (Issuer Call Option) both subject to written notice of at least one month.

**Product Documentation**

The complete and legally binding terms and conditions of the Products are set forth in the base prospectus for the issuance of Participation Products of Bank Julius Baer & Co. Ltd. (the "Bank"), dated 19 June 2017, as supplemented from time to time (the "Base Prospectus") and the relevant final terms prepared in relation to the Products (the "Final Terms"). The Base Prospectus and the Final Terms may be obtained free of charge from Bank Julius Baer & Co. Ltd., Bahnhofstrasse 36, 8001 Zurich, Switzerland.

This document is designated for distribution and use in Switzerland. Neither the Issuer nor any other person assumes any responsibility for the compliance of this document with any applicable law and regulations in any other jurisdiction than Switzerland.

## II. Profit and Loss Prospects

The investor participates directly in any increase of the value of the Underlying. The potential return on the Products is not capped. If the value of the Underlying decreases, the Final Redemption Amount may be substantially lower than the Issue Price. The

potential loss associated with an investment in such Products is linked to the negative performance of the Underlying. Therefore, a substantial or total loss of the invested amount in the Products is possible, although any such loss is limited to the invested amount.

### III. Significant Risks for Investors

The following risk disclosure cannot disclose all the risks associated with an investment in the Products. Therefore, potential investors in Products should consult the Base Prospectus and the Final Terms and their client advisor as to the product specific risks before making an investment decision.

#### 1. Issuer Risk

Investors bear the credit risk of the Issuer. The Products' retention of value is dependent not only on the development of the value of the Underlying, but also on the creditworthiness of the Issuer, which may change over the term of the Product. The credit rating of the Issuer is not a guarantee of credit quality. In case of the Issuer's insolvency or bankruptcy the investors in the Products may lose their entire investment.

The Products are direct, unconditional, unsecured and unsubordinated obligations of the Issuer. If the Issuer were to become insolvent, claims of investors in Products will rank equally in right of payment with all other unsecured and unsubordinated obligations of the Issuer, except such obligations given priority by law. In such a case, investors in Products may suffer a loss of all or a portion of their investment therein, irrespective of any favourable development of the other value determining factors, such as the performance of the Underlying(s).

The Products do not constitute bank accounts or deposits at Bank Julius Baer & Co. Ltd. The Products are less liquid than bank accounts or deposits and bear higher risks. An investment in Products will not be covered by any compensation or insurance scheme (such as a bank deposit protection scheme) of any government agency of Switzerland or any other jurisdiction and Products do not have the benefit of any government guarantee. Products are the obligations of the Issuer only and holders of Products must look solely to the Issuer for the performance of the Issuer's obligations under such Products. In the event of the insolvency of the Issuer, an investor in Products may lose all or some of its investment therein.

Bank Julius Baer & Co. Ltd. is a bank pursuant to the Federal Banking Act (BA; SR 952.0) and a securities dealer pursuant to the Federal Act on Stock Exchanges and Complex Products Trading (SESTA; SR 954.1) subject to the prudential supervision by the Swiss Financial Market Supervisory Authority FINMA in Berne (Laupenstrasse 27, CH-3003 Berne; <http://www.finma.ch>).

The Issuer, Bank Julius Baer & Co. Ltd, Guernsey Branch (a branch of Bank Julius Baer & Co. Ltd., Zurich, founded in Switzerland and under the supervision of the Swiss Financial Market Supervisory Authority FINMA), is licensed in Guernsey under the Banking Supervision (Bailiwick of Guernsey) Law 1994 and The Protection of Investors (Bailiwick of Guernsey) Law 1987. Neither the Guernsey Financial Services Commission (P.O. Box 128, Glatigny Court, Glatigny Esplanade, St. Peter Port, Guernsey, Channel Islands, GY1 3HQ) nor the States of Guernsey Policy Council takes any responsibility for the financial soundness of the Issue or for the correctness of any of the statements made or opinions expressed with regard to it.

#### 2. Product Risks

An investment in Products entails certain risks, which vary depending on the specific type and structure of the relevant Products and the relevant Underlying(s).

An investment in Products requires a thorough understanding of the nature of Products. Potential investors in Products should be experienced with respect to an investment in complex financial instruments and be aware of the related risks. A potential investor in Products should determine the suitability of such an investment in light of such investor's particular circumstances. In particular, a potential investor in Products should:

- have sufficient knowledge and experience to make a meaningful evaluation of Products, the merits and risks of investing in Products and the information contained in the Base Prospectus and the applicable Terms and Conditions;
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of such investor's particular financial situation, an investment in Products and the impact the relevant Products will have on such investor's overall investment portfolio;
- have sufficient financial resources to bear all the risks of an investment in the relevant Products;
- understand thoroughly the Terms and Conditions applicable to the relevant Products and be familiar with the behaviour of the relevant Underlying(s) and financial markets;
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic and other factors that may affect such investor's investment and ability to bear the applicable risks of an investment in Products until their redemption; and
- recognise that it may not be possible to dispose of Products for a substantial period of time, if at all, before their redemption.

The trading market for securities, such as Products, may be volatile and may be adversely impacted by many events.

Products are complex financial instruments. Investors generally purchase complex financial instruments as a way to enhance yield with an understood, measured, appropriate addition of risk to their overall investment portfolios. A potential investor should not invest in Products unless such investor has the expertise (either alone or with the help of a financial adviser) to evaluate how the relevant Products will perform under changing conditions, the resulting effects on the market value of the relevant Products and the impact such an investment will have on such investor's overall investment portfolio.

#### Risk of total loss

Products involve a high degree of risk, and prospective investors in the Products should recognise that, under certain circumstances, Products may have a redemption value of zero. Prospective investors should therefore be prepared to sustain a partial or total loss of the amount of their investment therein.

### Unpredictable Market Value for Products

During the term of a Product, the market value of, and the expected return on, such Product may be influenced by many factors, some or all of which may be unpredictable. Many economic and market factors will influence the market value of a Product. The Issuer expects that, generally, the value and volatility of the Underlying(s) on any day will affect the market value of such Product more than any other single factor. However, a potential investor should not expect the market value of a Product in the secondary market to vary in proportion to changes in the value of the Underlying(s). The return on a Product (if any) may bear little relation to, and may be much less than, the return that the investor therein might have achieved if such investor had invested directly in the Underlying(s).

The market value of, and return (if any) on, a Product will be affected by a number of other factors, which may be unpredictable or beyond the Issuer's control, and which may offset or magnify each other, including, without limitation:

- supply and demand for such Product, including inventory positions of any other market maker;
- the expected frequency and magnitude of changes in the market value of the Underlying(s) (volatility);
- economic, financial, political or regulatory events or judicial decisions that affect the Issuer, the Underlying(s) or the financial markets generally;
- interest and yield rates in the market generally;
- the time remaining until the Final Redemption Date;
- if applicable, the difference between the Level or Commodity Reference Price, as applicable, and the relevant threshold specified in the applicable Terms and Conditions;
- the Issuer's creditworthiness, including actual or anticipated downgrades in the Issuer's credit ratings; and
- dividend payments on the Underlying(s), if any.

Some or all of these factors may influence the price of a Product. The impact of any of the factors set forth above may enhance or offset some or all of any change resulting from another factor or factors.

In addition, certain built-in costs are likely to adversely affect the market value of Products. The price at which the Issuer will be willing to purchase Products from a holder in secondary market transactions, if at all, will likely be lower than the original Issue Price.

### Exposure to the performance of the Underlyings

Each Product will represent an investment linked to the performance of the Underlying and potential investors should note that any amount(s) payable or other benefit to be received under the Products will generally depend upon the performance of the Underlying. The past performance of the Underlying is not indicative of the future performance.

### Exchange Rate Risk

The Underlying(s) may be denominated in a currency other than that of the Issue Currency or, if applicable, the Settlement Currency for such Product, or the Underlying(s) may be denominated in a currency other than, or the Issue Currency or, if applicable, the Settlement Currency may not be, the currency of the home jurisdiction of the investor in such Product. Exchange

rates between currencies are determined by factors of supply and demand in the international currency markets, which are in particular influenced by macro economic factors, speculation and central bank and government intervention (including the imposition of currency controls and restrictions). Therefore, fluctuations in exchange rates may adversely affect the market value of a Product or the value of the Underlying(s).

### Secondary Market

Products may have no established trading market when issued and one may never develop. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Products easily or at prices reasonably acceptable to them.

Under normal market circumstances, the Issuer will endeavour to provide a secondary market for Products, but is under no obligation to do so. Upon investor demand, the Issuer will endeavour to provide bid/offer prices for products, depending on actual market conditions. There will be a price difference between bid and offer prices (spread).

### Early Redemption

The investors must be aware of a possible early redemption of the Product.

Upon the occurrence of an extraordinary event, the Calculation Agent and the Issuer, acting together, have the right to, among other things, early redeem the relevant Products. If the Issuer exercises such early redemption right(s), investors should be aware that the early redemption price may be considerably lower than the Issue Price (or, if different, the price the relevant investor paid for such product) and/or the Final Redemption Amount that would otherwise have been paid on the Final Redemption Date.

### Issuer Call Option and Put Holder Option

The Products provide for a Holder Put Option (i.e., an investor may, on any Put Date, exercise its right to require the Issuer to redeem its Product(s) on the applicable Final Redemption Date at the Final Redemption Amount), and an Issuer Call Option (i.e., the Issuer may, on any Call Date, exercise its right to redeem the Products, in whole but not in part, on the applicable Final Redemption Date at the Final Redemption Amount). The Issuer and each investor in any such Product may exercise its Issuer Call Option and Holder Put Option, respectively, at its own discretion.

### Open-end Feature

Investors should be aware that Products have a so called open-end feature, i.e., the Products do not have a fixed maturity date. Instead, such Products provide for a Holder Put Option (i.e., an investor may, on any Put Date, exercise its right to require the Issuer to redeem its Product(s) on the applicable Final Redemption Date at the Final Redemption Amount), and an Issuer Call Option (i.e., the Issuer may, on any Call Date, exercise its right to redeem the Products, in whole but not in part, on the applicable Final Redemption Date at the Final Redemption Amount). The Issuer and each investor in any such Product may exercise its Issuer Call Option and Holder Put Option, respectively, at its own discretion.

### Further product specific risks

Investors should be aware that an investment in such Products generally results in a loss upon redemption if the value of the

Underlying(s) decreases. The potential loss associated with an investment in such Products is linked to the negative performance of the Underlying. Investors in the Products should be prepared to sustain a partial or total loss of their investment.

Investors should be aware that the return on the Products may not reflect the return which would be realized if the investor would invest in the relevant assets included in the portfolio(s) of the Fund(s) i.e., the investor will not receive any dividends paid on such assets. Accordingly, an investor in Products linked to Fund(s) may receive a lower payment (if any) upon redemption of such Products than such investor would have received, if he or she had directly invested in the assets included in the portfolio of the Fund(s).

Investors in Products linked to Fund(s) with a portfolio of assets that are concentrated in the shares of a particular industry or group of industries should be aware that the performance of such Fund(s) could be more volatile than the performance of Funds with portfolios of more diverse assets.

Investors should be aware that the Final Redemption Amount may take into account transaction costs, a management/structuring fee and/or a basket monitoring fee, which costs and fees will reduce the return on the product.

#### **Risks relating to the underlying funds**

A Fund is either (i) an exchange traded fund ("ETF"), which is an open ended or other fund traded like a share on an exchange, or (ii) other fund, in each case, that tracks the performance of a portfolio of assets. As a result, the performance of a Fund is dependent upon the macroeconomic factors affecting the performance of such assets which may include, among other things, interest and price levels on the capital markets, commodity prices, currency developments, political factors and, in the case of shares, company specific factors, such as earnings position, market position, risk situation, shareholder structure and distribution policy.

These factors affecting the performance of the Fund(s) may adversely affect the market value of, and the return (if any) on, the Products linked thereto.

The market price of interests in the Fund that are traded on an exchange may, due to the forces of supply and demand, as well as liquidity and scale of trading spread in the secondary market, diverge from their net asset value, i.e., the market price per interest in the Fund could be higher or lower than its net asset value, and will fluctuate during the trading day.

The Issuer and the Calculation Agent have no influence on the composition or performance of any Fund or any index that such Fund is intended to replicate. The Management Company or the licensor/index sponsor, as applicable, of the underlying index can add, delete or substitute the assets included in such index, respectively, or make methodological changes that could affect the value of such Fund and of such underlying index. The substitution of assets included in the portfolio of a Fund or in an underlying index may affect the value of such Fund, as a newly added asset may perform significantly worse or better than the asset it replaces, which in turn may affect the market value of, or payments (or other benefits to be received) under, the Products. The Management Company or licensor/index sponsor of any underlying index may also alter, discontinue or suspend calculation or dissemination of such Fund or such underlying index, respectively. The Management Company and licensor/index sponsor of such underlying index are not involved in the offer and sale of the Products and have no obligation to invest therein. The Management Company and licensor/index sponsor of such underlying index may take any actions in respect of such Fund or such underlying index, respectively, without regard to the interests of the investors in Products, and any of these actions could adversely affect the market value of (or amount payable under) such Products. In particular, no assurance can be given that the performance of an ETF will be identical to the performance of the assets which it intends to replicate due to many factors.

#### **Further Information**

For further details on the Product related risks please consult the risk disclosure brochure "Special Risks in Complex Products Trading" (Edition 2008) which is available on the Swiss Bankers Association's website:

<http://www.swissbanking.org/en/home/shop.htm> or may be obtained from your client advisor upon request.

#### IV. Important Additional Information

This document does not constitute an offer or invitation to enter into any type of financial transaction and the Issuer has no obligation to issue the Products. This document is not the result of a financial analysis and therefore, is not subject to the "Directives on the Independence of Financial Research" from the Swiss Bankers Associations. The content of this document does therefore not fulfill the legal requirements for the independence of financial analyses and there is no restriction on trading in this regard.

##### Conflicts of Interest

The Issuer and affiliated companies may from time to time enter into transactions for their own account or for the account of a client that are related to the Products. These transactions may not be for the benefit of the investor and may have positive or negative effects on the value of the Underlying(s) and thus on the value of the Products. Companies affiliated to the Issuer may also become counterparties in hedging transactions. Accordingly, conflicts of interest may therefore arise with regard to obligations relating to the ascertainment of the values of the Products and other related determinations both among affiliated companies of the Issuer and between these companies and the investors. In addition, the Issuer and affiliated companies may exercise a different function, if applicable, in relation to the products, for example as calculation agent, paying agent or administrative office.

##### Distribution Compensation/Distribution Allowances from and to Third Parties

In connection with the Products, the Issuer and/or its affiliates may pay to third parties or to each other, or receive from third parties one-time or recurring remunerations (e.g. placement or holding fees). Such remunerations to affiliates or third parties, if any, are included in the Issue Price. Investors may request further information from Bank Julius Baer & Co. Ltd. By receiving such payments in connection with the Products, the interest of the Issuer or such affiliate or the third party, as the case may be, may conflict with the interest of the investor in the Products.

##### Amendments to the Product Conditions

Information regarding unforeseen changes to the conditions of the Product which may arise during the lifetime of the Products are not subject to this document but may be obtained from your client advisor upon request and will be published on:

<http://derivatives.juliusbaer.com>; corporate actions and/or <http://www.six-swiss->

[exchange.com/news/official\\_notices/search\\_en.html](http://exchange.com/news/official_notices/search_en.html). This document will not be amended throughout the term of the Products.

##### Selling Restrictions

The Products were not registered with the local regulator and are not publicly distributable outside of Switzerland. The Products may not be offered in any jurisdiction in circumstances that would result in the Issuer being obliged to register any further prospectus relating to the Products in that jurisdiction. Potential purchasers of the Products are advised to read the detailed selling restrictions in the Base Prospectus and the Final Terms. Potential purchasers of the Products should seek specific advice before purchasing or selling-on a Product. Particular attention should be paid to the selling restrictions set out in the Base Prospectus and the Final Terms with respect to the following jurisdictions: European Economic Area (EEA), United States of America, United Kingdom, Guernsey, The Netherlands, Italy, Hong Kong, Singapore, Dubai International Financial Centre, United Arab Emirates, Kingdom of Bahrain, Israel, Uruguay, Panama. These restrictions must not be taken as conclusive guidance as to whether the Products can be sold in a jurisdiction.

For investors located in Panama: Neither these securities, nor their offer, sale or transfer, have been registered with the Superintendence of the Securities Market (formerly the National Securities Commission). The exemption from registration is based on numeral 3 of Article 129 (Institutional Investors) of Decree Law 1 of July 8, 1999 as amended and organized into a single text by Title II of Law 67 of 2011 (the "Securities Law"). In consequence, the tax treatment established in Articles 334 to 336 of the Securities Law, does not apply to them. These securities are not under the supervision of the Superintendence of the Securities Market.
