## REDEMPTION

On the Redemption Date, the Investor is entitled to receive from the Issuer per Product a Cash Settlement in the Settlement Currency in accordance with the following provisions:

**Scenario 1**  
(Scheduled) In case no Credit Event during the Credit Event Observation Period has occurred, a Cash Settlement in the Settlement Currency according to the following formula:

**Denomination × Conditional Capital Protection**

**Scenario 2**  
(Credit Event) In case a Credit Event has occurred during the Credit Event Observation Period with respect to one or more Reference Entities, as reasonably observed and determined by the Calculation Agent, the **Liquidation Amount**.

In case, the exercise of the Issuer's Termination Right coincides with the occurrence of a Credit Event during the Credit Event Observation Period with respect to all Reference Entities, Scenario 2 will take precedence over the Issuer's Termination Right provisions.

**The Calculation Agent may postpone or suspend the payment of any amount if the Calculation Agent has determined – in its sole and absolute discretion – that a Credit Event or a potential Credit Event (such as, but not limited to, a Potential Failure to Pay) has occurred, may have occurred, or might shortly occur, or if there is a pending request with the relevant Credit Derivatives Determinations Committee (as defined in the ISDA Definitions) regarding the occurrence of a Credit Event.**

**Affected Reference Entity / Obligation** Means a Reference Entity or Reference Obligation in respect of which a Credit Event has occurred during the Credit Event Observation Period.

**Liquidation Amount** The Liquidation Amount is expressed in the Settlement Currency and equals (i) the Denomination multiplied by the Conditional Capital Protection less (ii) the pro rata share of all losses for unwinding or the settlement of any hedge position relating to the **Affected Reference Entities/Obligations** and less (iii) the pro rata share of any costs generated by the unwind or settlement of such hedging positions.

In case of an exercise of the Issuer's Termination Right, the Liquidation Amount is expressed in the Settlement Currency and equals (i) the Denomination multiplied by the Conditional Capital Protection less (ii) the pro rata share of all losses for unwinding or the settlement of any hedge position relating to the **Reference Entities and Reference Obligations** and less (iii) the pro rata share of any costs generated by the unwind or settlement of such hedging positions.

The Liquidation Amount will be calculated by the Calculation Agent in its sole and absolute discretion. The Calculation Agent will publish the Liquidation Amount as soon as it has been calculated according to the Programme.

In case the Issuer gets a delivery of obligations from any hedge position, he shall try to sell such obligations at the market within 20 calendar days after the Final Fixing Date. If for whatever reason he is unable to do so, the Issuer shall act as the buyer of last resort. In such a case, the price of the affected obligations will be determined by the Calculation Agent in its sole and absolute discretion and might in extreme cases be zero.

**The Liquidation Amount may be significantly lower than the Conditional Capital Protection or even zero.**

**Issuer's Termination Right** The Issuer has an unconditional right to call all Certificates for early redemption (the "**Termination Right**") at any time without previous notice by announcement (the "**Termination Announcement**") on the Paying Agent's website ([www.leonteq.com](http://www.leonteq.com)), all in accordance with the General Terms and Conditions of the Programme. The Termination Announcement will specify the Final Fixing Date and the respective Early Redemption Date.

In case the Issuer's Termination Right has been exercised, the Investor will receive the **Liquidation Amount** on the Early Redemption Date, and the Product will be terminated. No current and no further coupon amounts will be payable to the Investor.

## TERMS RELATING TO THE REFERENCE OBLIGATION(S)

**Issuer's Substitution Right** The Issuer has an unconditional right to substitute any Reference Obligation by another obligation ("**Replacement Reference Obligation**") issued by the same Reference Entity or a Successor thereof without notice. In case no Replacement Reference Obligation is found, the Issuer may exercise the Issuer's Termination Right, otherwise the Product continues to exist.

The Issuer may exercise the Issuer's Substitution Right multiple times on the same Reference Entity or different Reference Entities, as the case may be. The Issuer may exercise the Issuer's Substitution Right in case of (but not limited to):

- a Reference Entity Call Event, or
- any corporate action in respect of a Reference Obligation (excluding any Credit Event in respect of a Reference Entity, as defined herein), or
- a restructuring in respect of a Reference Obligation (excluding any Credit Event in respect of a Reference Entity, as defined herein), or
- the ordinary redemption of a Reference Obligation.

**Reference Entity Call Event** Means any redemption (full or partial) of a Reference Obligation by the Reference Entity (e.g. exercising a redemption option, redemption right or call right but excluding the ordinary redemption at maturity), as reasonably determined by the Calculation Agent in his sole and absolute discretion.

**Successor** As defined in the ISDA Definitions (see section "Credit Event Determination Characteristics"). In accordance with the ISDA Definitions, a Reference Entity may become a Successor of another Reference Entity, including of an Affected Reference Entity or vice versa. In case a Successor is an Affected Reference Entity, such Successor may again become subject to a Credit Event.

## CREDIT EVENT DETERMINATION CHARACTERISTICS

**Credit Event** The Calculation Agent determines in its sole and absolute discretion that a Credit Event has occurred with respect to a Reference Entity or Reference Obligation during the Credit Event Observation Period if:

- the relevant Reference Entity fails to make, when and where due any interest, redemption or other payment as defined in the terms and conditions of the relevant Reference Obligation as of the Initial Fixing Date of this Product, or
- an event has occurred that causes payments (interest, redemption or other payments) to be delayed or different in amount as per the terms and conditions of the relevant Reference Obligation as of the Initial Fixing Date of this Product, or

3. a credit event (as defined in the ISDA Definitions) has occurred in respect of the relevant Reference Obligation or the relevant Reference Entity, or
4. any other event occurs in respect of the relevant Reference Obligation or the relevant Reference Entity which may result in a non-payment or late payment of any amount due.

For the purposes of point 3 above, the following shall apply:

1. The credit event shall be determined in accordance with the Transaction Type specified in table "Reference Entity(-ies)" and as defined in the most recent version of the Credit Derivatives Physical Settlement Matrix as of the Initial Fixing Date ("**Matrix**") as determined by the Calculation Agent. 2. For the purposes of determining a credit event, the Calculation Agent will use the standard elections in the Matrix.
3. For the purposes of the definition of the Credit Event Notice (see Section 1.32. of the ISDA Definitions) and the definition of the DC Credit Event Announcement (see Section 1.28. of the ISDA Definitions), the Credit Event Backstop Date shall be "not applicable".

The relevant Credit Event Notice is regarded as delivered and becomes effective immediately after its publication on the Calculation Agent's website ("**Notice Delivery Date**").

<b>Credit Event Observation Period</b>	Means the period from (and including) the day which is 60 calendar days prior to the Initial Fixing Date to (and including) the Extension Date (as defined in the ISDA Definitions). For the purposes of the determination of the Extension Date, the 20 December 2024 shall be regarded as the Scheduled Termination Date.
<b>Notice Delivery Period</b>	Means the period from and including the Initial Fixing Date to and including the date that is 25 calendar days after the later of the Final Fixing Date and the Extension Date (as defined in the ISDA Definitions).

The Calculation Agent has the right (but not the obligation) to replace and amend the ISDA Definitions by any later definitions or supplements published by the ISDA. The ISDA Definitions shall apply only as far as they are required to define the terms in capital letters which are mentioned in this Termsheet and are not already defined in the Product Documentation, unless explicitly provided otherwise herein. #### TAXATION SWITZERLAND

**Swiss Federal Stamp Duty** For Swiss stamp duty purpose, the Product is treated as analogous to a bond. Therefore, secondary market transactions are in principle subject to Swiss stamp duty (TK22).

**Swiss Federal Income Tax (for private investors with tax domicile in Switzerland)** For tax purposes this Product is classified as transparent and non-IUP (non-interest unique predominant). Therefore, for private Investors with tax domicile in Switzerland holding the Product as part of their private property, the Minimum Coupon(s) on the Coupon Payment Date(s) and the increase of the value of the bond part at redemption are subject to the Federal Direct Tax. The present value of the bond part at issue is the Bondfloor per unit.

The tax treatment regarding the cantonal and communal income taxes can differ from the tax treatment regarding the Federal Direct Tax. But in general the income tax treatments are corresponding.

The assessment of the Swiss Federal Income Tax is subject to adjustments due to possible changes in market conditions.

**Swiss Withholding Tax** The Product is not subject to the Swiss withholding tax.

On 1 January 2017, Switzerland has implemented the Automatic Exchange of Information in Tax Matters (“AEOI”) with the EU and Australia, Jersey, Guernsey, Isle of Man, Iceland, Norway, Japan, Canada and South Korea. Switzerland is also negotiating the introduction of the AEOI with other countries. In this context, the EU Savings Tax for Swiss paying agents and the Final Withholding Tax with UK and Austria was repealed.

The tax information is a non-binding summary and only provides a general overview of the potential Swiss tax consequences linked to this Product at the time of issue. Tax laws and tax interpretation may change at any time, possibly with retroactive effect.

Investors and prospective Investors are advised to consult with their tax advisers with respect to the Swiss tax consequences of the purchase, ownership, disposition, lapse or exercise or redemption of a Product in light of their particular circumstances. The Issuing Parties and the Lead Manager hereby expressly exclude any liability in respect of any possible tax implications.

#### Information with regards to bondfloor taxation

Updated bondfloor information, if a bondfloor is applicable to the Product (according to “Product Details” and “Taxation Switzerland” herein), can be found on the following web page of the Swiss Federal Tax Administration (FTA): [www.ictax.admin.ch](http://www.ictax.admin.ch). The Investor must be aware that for tax purposes the value of the bondfloor is converted into Swiss Francs (CHF) at inception/purchase as well as at sale/redemption of the Product, in case the Product is denominated in another currency than CHF. Thus, the Investor is exposed to the foreign exchange risk with regard to the taxable income calculation and thus also the withholding tax calculation, if applicable. However, withholding tax on the bondfloor only applies if the Bondfloor at redemption (in %) is greater than the bondfloor at issuance (in %).

## II. PROSPECTS FOR PROFIT AND LOSS

This Product falls within the category "Reference Entity Certificate with Conditional Capital Protection". Depending on whether the Product is capped or not, the profit an Investor could realize with this Product at redemption is limited (with cap) or unlimited (without cap). Any profit is composed of the invested capital (excluding any transaction or other costs) multiplied by the Conditional Capital Protection plus any additional (guaranteed and/or conditional) payments such as coupon or participation payments, bonuses or others.

On the downside the Investor's exposure to the Underlying(s) is floored at the Conditional Capital Protection level.

**In case a Credit Event has occurred, the Investor could lose the total capital invested.**

Please refer to the sections "Product Description" and "Redemption" for more detailed information on the characteristics of this Product.

## III. SIGNIFICANT RISKS

### RISK FACTORS RELATING TO THE PRODUCT

#### General

**In case a Credit Event has occurred, the Investor could lose the total capital invested.**

This Product is a complex financial product. The Investor assumes an additional credit risk. Investors are advised to seek expert advice on the risks associated with the specific Product before investing in Products with exposure to a Reference Entity or referring to third party credit events.

Given the complexity of the terms and conditions of this Product an investment is suitable only for experienced Investors who understand and are in a position to evaluate the risks associated with it.

#### Risks regarding the credit linkage to the Reference Entity and the Reference Obligation

The value of this Product and its repayment depends, amongst other things, predominantly on the Reference Entity(-ies) and the Reference Obligation(s). The creditworthiness of the relevant Reference Entity depends on specific risks relating to such entity and its business.

Any collateral securitization in place does not eliminate the risks associated with any Credit Event.

This Product is neither guaranteed by the Reference Entity(-ies) nor secured by any bonds or assets of the Reference Entity(-ies).

If the Calculation Agent determines, in accordance with the Product terms and at its own discretion, that a Credit Event has occurred, the Investors in the Product have no right of recourse against the relevant Reference Entity with regards to any loss which they sustain due to the Liquidation Amount redeemed to them (which may be significantly lower than the Issue Price or even zero).

After determination of a Credit Event by the Calculation Agent, the Investors do not stand to benefit from any positive performance with regards to the Reference Obligation(s) or any other debt instruments issued by the relevant Reference Entity. In particular, the consequences of determination of a Credit Event by the Calculation Agent cannot be reversed. As such, Investors do not participate, e.g. in the event of restructuring, in the corresponding restructuring process and are not entitled to appeal against elements of the restructuring process. For this reason, an investment in the Product may be associated with a higher risk than a direct investment in the liabilities of the Reference Entity(-ies).

If circumstances arise or an event occurs which have/has a negative impact on the creditworthiness or credit rating of the Reference Entity(-ies) but which do/does not result in the occurrence of a Credit Event, the price of the Product may fall. As a result, Investors who sell the Product at this time may sustain a significant loss of their capital invested.

No investigations, searches or other enquiries will be made and no express or implied representations or warranties will be given by the Issuer, Guarantor and their affiliates, any agent or any other third party on behalf of any of the persons named above in respect of the Reference Entity(-ies).

As a result of mergers or other events, the Reference Entity(-ies) may change. This could result in the risk that the relevant Reference Entity following such changes being, in economic terms, no longer comparable to the respective Reference Entity prior to such changes. Successions may be relevant if they have occurred before or after the Issue Date or after the Final Fixing Date of the Product.

Investors should take into account that the relevant date, on which the Liquidation Amount can be determined, may occur not only several days, but also several weeks or months, after the occurrence of a Credit Event without any interest payment in respect of the Liquidation Amount being owed by the Issuer.

Certain events and circumstances, including the occurrence of a Credit Event, shall be deemed to have occurred if a relevant Credit Derivatives Determination Committee of ISDA (the "DC") has issued a resolution to such effect. The resolutions made by a relevant DC will be published on the website <http://www.isda.org/credit/>. Potential Investors should be aware that their investment in the Product and any loss following a Credit Event is dependent on the contents of DC resolutions and that the Issuer, Guarantor and their affiliates and the holders of the Product are bound by such resolutions.

The Issuer, Guarantor and their affiliates may be subject to conflicts of interest in relation to the Reference Entity(-ies).

Rating agencies attempt to evaluate the safety of principal and/or interest payments and do not evaluate the risks of fluctuations in market value. Accordingly, the credit ratings (if applicable) may not fully reflect the true risks of a Reference Entity. Also, rating agencies may fail to make timely changes in credit ratings in response to

subsequent events; so that an issuer's current financial condition may be better or worse than its rating indicates. Rating agencies may from time to time change the ratings of a Reference Entity even if no losses have been incurred.

Furthermore, there is no assurance that the rating (if applicable) of a Reference Entity will not be reduced or withdrawn in the future, or that a rating is a guarantee of future performance. Neither the Issuer nor any other party has made any investigation into the Reference Entity.
