## 1. Product Description<sup>2</sup>

LUKB Actively Managed Tracker Certificates offer Investors the opportunity to replicate the price movement of the Basket and thus to participate in its development. The risk/return profile of this Product is comparable to the risk/return profile of the Basket. The Basket consists of several components (the «Basket Components») and represents the Underlying of this Product. The Basket is **dynamic** and managed **discretionary** by the Investment Advisor during the lifetime of the Product. The Investment Advisor composes the Basket in line with the Investment Strategy at his own discretion and can amend the composition at any time. Thus, the performance of the Basket depends on the Investment Strategy pursued by the Investment Advisor and its implementation. This Product provides variable annual payments as compensation for the sum of the proportional net dividends, net coupons resp. net distributions paid by the Basket Components.

## PRODUCT TERMS AND CONDITIONS

### Issuer / Lead Manager / Paying and Calculation Agent

Luzerner Kantonalbank AG, Lucerne, Switzerland  
Rating: Standard & Poor's AA  
Supervisory Authority: FINMA

### Investment Advisor

Aquila AG, Zurich, Switzerland  
Supervisory Authority: FINMA

### Investment Strategy

The objective of the strategy is the long-term growth of the real investment value. The majority of investments are made in equities. Bonds account for around 20% of the investments. The AMC is suitable for investors who pursue long-term growth of their portfolio. The equity quota is implemented in the Swiss domestic market primarily through individual investments, while the international equity allocation is implemented through collective investments. Alternative investments (among others also hedge funds) and structured products can be used to optimize the risk/return profile. The underlyings are selected based on the qualified market assessment of the Investment Advisor.

The Investment Strategy does not involve leverage and is implemented in accordance with the Investment Guidelines. These guidelines provide for a maximum investment degree of 100% and a weighting of the individual basket components between a minimum of 0% and a maximum of 100%. In addition, the number of basket components is between a minimum of 10 and a maximum of 60. The basket contains a cash position.

Further information on the Investment Strategy, the Investment Guidelines and the Investment Restrictions - if available - can be obtained free of charge from the Issuer: Luzerner Kantonalbank AG Structured Products, Pilatusstrasse 12, 6003 Lucerne, Email: [structuredproducts@lukb.ch](mailto:structuredproducts@lukb.ch).

### Underlying Universe

Equity securities such as shares, participation certificates, profit-sharing certificates and Exchange Traded Funds (ETFs) that are listed or admitted to trading on SIX Swiss Exchange or on a foreign securities exchange with equivalent regulation are permitted as underlying instruments. Collective investment schemes are permitted as underlying instruments provided the collective investment scheme is listed or admitted to trading on SIX Swiss Exchange or on a foreign securities exchange with equivalent regulation. Collective investment schemes that are neither on SIX Swiss Exchange nor on a foreign securities exchange with equivalent regulation listed or admitted to trading are permitted as underlyings if they hold an approval or sale authorisation of FINMA. Bonds traded on a recognised stock exchange or, with the prior consent of the issuer, on other recognised trading venues are permitted as underlyings. All Structured Products and ETPs that are listed or admitted to trading on SIX Swiss Exchange are permitted as underlying instruments. Also permitted are Structured Products and ETPs that are listed or admitted to trading on a foreign securities exchange with equivalent regulation and that would also be eligible for listing on SIX Swiss Exchange.

The underlyings are selected by the Investment Advisor as part of the Investment Strategy implementation. The Investment Advisor regularly consults the Strategy Advisor to make decisions regarding tactical positioning.

In addition to the above underlyings, a Cash Position is used as a Basket Component and is included in the Basket. The Cash Position is in the currency of

the product. The Cash Position does not bear interest, however the Issuer reserves the right to charge negative interest rates in the future. The cumulative share of the Cash Position and the debt securities with interest component may not exceed 50% of the product value.

At the discretion of the Investment Advisor, the FX risk can be hedged against its certificate currency with automated FX swaps on a daily rollover basis (Spot/Next). Whether and which currencies can be hedged is determined in exchange with the Issuer. Any PnL derived from this hedging activity will be considered in the determination of the Redemption Amount.

**Implementation of the Investment Strategy**

The Investment Advisor is solely responsible for the implementation and compliance of the Investment Strategy and decides solely on the composition and reallocation (rebalancing) of the Basket. The Issuer has no obligation to monitor this, but reserves the right to refuse to accept a new Basket Component by the Investment Advisor without giving any reasons.

The corresponding notification must be published as soon as possible, stating the Termination Date.

#### **Investor Put**

Subject to prior notice by the Issuer, each Investor has the right to terminate its Products on a quarterly basis on January 04, April 04, July 04 and October 04 (modified following, for the first time in October 2023) ("Termination Date"). **Issuer Risk**

Investors in this Product bear the Issuer Risk. Potential Investors should therefore be aware that they are exposed to the credit risk of the Issuer. Hence, Investors bear the risk that the financial situation of the Issuer could deteriorate and the Issuer of the Product may become insolvent. In this case all forthcoming and thus not yet occurred compensation payments will also be affected by such insolvency and not be paid. The Product's value is therefore not only dependent on the performance of the Underlying(s) but also on the creditworthiness of the Issuer,

which may change over the term of the Product. The Issuer Rating stated in this Final Terms may be subject to change.

**Loss Potential**

This Product provides no minimum repayment amount. Therefore, Potential Investors may lose all of the invested capital.

**Capital Protection**

This Product does not provide for a capital protection.

**Risks compared to a direct Investment in the Underlying(s)**

The risk potential is similar to a direct investment in the Underlying respectively in the Basket Components.

**Early Termination and Cancellation**

Under certain circumstances set forth in the General Terms and Conditions, the Issuer has the right to terminate and cancel this Product early and pay Investors the fair market value of this Product at the effective date of the Early Termination and Cancellation. Hence, Potential Investors should be aware that they may make a loss on their invested capital if the Products are terminated and cancelled early.

**Secondary Market**

Even though the Issuer intends to make a market in these Products on a regular basis under normal market conditions, the Issuer is under no obligation with respect to Investors to provide any market in this Product at all, whereby any market making provisions of the stock exchange apply with regard to listed products. Potential Investors should note that there is no guarantee of a specific liquidity or a specific spread (difference between bid and ask prices) or any prices at all. Hence, Potential Investors should not rely on the possibility to buy or sell the Product in a specific point in time or to a specific price. By selling the Product in the secondary market Investors may receive less than the invested capital.

In case of a secondary market transaction, there is a possibility that costs, including taxes, related to or in connection with this Product may arise for Investors that are not paid by the Issuer or imposed by the Issuer.

Sales of Products by the Issuer on the secondary market lead to a temporary increase of the Cash Position and to a temporary relative reduction of all other Basket Components. In contrast, repurchases of Products by the Issuer on the secondary market lead to a temporary reduction of the Cash Position and to a temporary relative increase of all other Basket Components. The temporary increase/decrease of the Cash Position due to secondary market activities in the Product and the subsequently temporary relative decrease/increase of all other Basket Components may have, due to unfavorable market movements, an adverse impact on the value of the Product.

If the available Cash Position is not sufficient to enable repurchases of Products by the Issuer on the secondary market, the Investment Advisor will inform the Issuer which Basket Component(s) is/are to be reduced. If the Investment Advisor cannot be reached in time or if he does not place an order with the Issuer, the Issuer has the right, at its discretion, to reduce one or more Basket Component(s) or to refuse to execute the secondary market sales transactions.

**Market Disruption**

Under certain circumstances set forth in the General Terms and Conditions, if the Issuer and/or Calculation Agent determines that a specified Market Disruption Event has occurred, any consequential adjustments in line with Combined Terms and Conditions may have an adverse effect on the value of this Product.

**Additional Market Disruption Event  
- Temporary Suspension of NAV  
Disclosure**

The NAV of a Basket Component is not published on a fixation business day.

**Volatility**

Potential Investors should take into account that market prices for this Product may be volatile, depending upon the development of the price or value of the Underlying(s) resp. Basket, interest rates, remaining term of the Product and other factors.

**FX Hedging**

The daily FX hedging does not constitute a complete hedge against exchange rate losses and may have an adverse impact on the value of this product. The costs incurred by the FX hedging can have a negative impact on the product value.

**Implementation of the Investment  
Strategy**

It is possible that the Investment Strategy will not achieve its goal, and the development of the Investment Strategy depends on the Investment Advisor. There is no guarantee that the Investment Advisor will successfully implement the Investment Strategy and that the Investment Strategy will develop positively.

The Issuer may sell this Product to financial intermediaries and other financial institutions at a discount to the Issue Price or reimburse a certain amount of the Issue Price to them ("Distribution Fees").
