The risk/return profile of this Product is comparable to the risk/return profile of the Basket. The Basket consists of several components (the «Basket Components») and represents the Underlying of this Product. The Basket is **dynamic** and managed **discretionary** by the Investment Advisor during the lifetime of the Product. The Investment Advisor composes the Basket in line with the Investment Strategy at his own discretion and can amend the composition at any time. Thus, the performance of the Basket depends on the Investment Strategy pursued by the Investment Advisor and its implementation. There are no distributions to the Investor. The net dividends, net coupons resp. net distributions distributed by the Basket Components are reinvested in the respective Basket Components.

Investment Strategy

When inflation is high, wealth dwindles. Stocks are tangible assets and are considered a protection in inflationary times. You buy a share in a company with them. Cash, bank balances or bonds, on the other hand, are nominal values that suffer severe losses when inflation rises. However, it is important to select the right industries and sectors. Certain companies are less sensitive to inflation than others. Especially companies that have high pricing power for their products. In a phase of high inflation, you can raise prices and thus compensate for the effect of inflation. Equities from the consumer goods, energy, utilities and raw materials sectors are also demonstrably more resistant in an inflationary environment.

The underlyings are selected based on the quantitative and qualitative market assessment of the Investment Advisor. The Investment Strategy does not involve leverage and is implemented in accordance with the Investment Guidelines. These guidelines provide for a maximum investment level of 100% and a weighting of the individual basket components between a minimum of 0% and a maximum of 100%. In addition, the number of basket components is between a minimum of 10 and a maximum of 40. The basket can contain a cash position. Any dividends are reinvested. The weighting is initially equally weighted, but can be adjusted.

Further information on the Investment Strategy, the Investment Guidelines and the Investment Restrictions - if available - can be obtained free of charge from the Issuer: Luzerner Kantonalbank AG Structured Products, Pilatusstrasse 12, 6003 Lucerne, Email: structuredproducts@lukb.ch.

Underlying Universe

The title universe consists of global companies, which the Investment Advisor selects as part of the implementation of the Investment Strategy. Equity securities such as shares, participation certificates, profit-sharing certificates, Exchange Traded Funds (ETFs) and Collective investment schemes that are listed or admitted to trading on SIX Swiss Exchange or on a foreign securities exchange with equivalent regulation are permitted as underlying instruments. Additionally, permitted are structured products listed or admitted to trading on SIX Swiss Exchange. In addition to the above underlyings, a Cash Position is used as a Basket Component and is included in the Basket. The Cash Position is in the currency of the product. The Cash Position does not bear interest, however the Issuer reserves the right to charge negative interest rates in the future. The cumulative share of the Cash Position and the debt securities may not exceed 50% of the product value. At the discretion of the Investment Advisor, the FX risk can be hedged against its certificate currency with automated FX swaps on a daily rollover basis (Spot/Next). Any PnL derived from this hedging activity will be considered in the determination of the Redemption Amount.

Implementation of the Investment Strategy

The Investment Advisor is solely responsible for the implementation and compliance of the Investment Strategy and decides solely on the composition and reallocation (rebalancing) of the Basket. The Issuer has no obligation to monitor this, but reserves the right to refuse to accept a new Basket Component by the Investment Advisor without giving any reasons.

For further information on the Issuer Call, please refer to Section 5.1.13 of the General Terms and Conditions of the Base Prospectus.

Extraordinary right of termination of the Issuer

If changes in the Basket are planned or have already been made, which, in the sole opinion of the Issuer, are such that a continuation of the Products does not appear appropriate, the Issuer has the right to terminate at any time all outstanding Products for the purpose of early redemption without giving any reason on a freely determined Termination Date.

The corresponding notification must be published as soon as possible, stating the Termination Date.

Investor Put

Subject to prior notice by the Issuer, each Investor has the right to terminate its Products on a quarterly basis on March 27, June 27, September 27 and December 27 (modified following, for the first time in June 2023) ("Termination Date"). The Investor must provide the Paying Agent with a duly completed and signed termination notice (with the information in accordance with section 5.1.13 ii. b. of the General Terms and Conditions of the Base Prospectus) no later than 10 bank working days before the Termination Date by letter mail or by email (Luzerner Kantonbank AG Structured Products, Pilatusstrasse 12, 6003 Luzern, structuredproducts@lukb.ch). Redemption at Termination Date

The Redemption Amount is determined by the Calculation Agent on the Termination Date. The Redemption is made 5 bank working days after the Termination Date. With the valor search function (Valorensuchfunktion) such Products can be located. If this Product is listed on an Exchange, the notices will be published in accordance with the rules issued by the relevant Exchange on the relevant Exchange website.

Market Disruption Event

If the Issuer and/or the Calculation Agent determines, in its reasonable discretion, that a day relevant for the determination of the price of one or some of the components of the Underlying (each an "Affected Component") is a Disrupted Day then the Issuer and/or the Calculation Agent shall determine the relevant price of the Affected Component in its reasonable discretion taking into account established market practice, including, but not limited to, using the most recently traded price or a fair value established at its sole discretion.

"Disrupted Day" means any Business Day on which any relevant exchange fails to open for trading during its regular trading session or on which an event has occurred that disrupts or impairs (as determined by the Issuer and/or Calculation Agent) the ability of market participants to effect transactions in or obtain market prices for, any components of the Underlying.
