1. Product Description

LUKB Actively Managed Tracker Certificates offer Investors the opportunity to replicate the price movement of the Basket and thus to participate in its development. The risk/return profile of this Product is comparable to the risk/return profile of the Basket. The Basket consists of several components (the «Basket Components») and represents the Underlying of this Product. The Basket is **dynamic** and managed **discretionary** by the Investment Advisor during the lifetime of the Product. The Investment Advisor composes the Basket in line with the Investment Strategy at his own discretion and can amend the composition at any time. Thus, the performance of the Basket depends on the Investment Strategy pursued by the Investment Advisor and its implementation. There are no distributions to the Investor. The net dividends, net coupons resp. net distributions distributed by the Basket Components are reinvested in the respective Basket Components.

For further information on the Issuer Call, please refer to Section 5.1.13 of the General Terms and Conditions of the Base Prospectus.

Extraordinary right of termination of the Issuer

If changes in the Basket are planned or have already been made, which, in the sole opinion of the Issuer, are such that a continuation of the Products does not appear appropriate, the Issuer has the right to terminate at any time all outstanding Products for the purpose of early redemption without giving any reason on a freely determined Termination Date.

The corresponding notification must be published as soon as possible, stating the Termination Date.

Investor Put

Subject to prior notice by the Issuer, each Investor has the right to terminate its Products on a quarterly basis on March 15, June 15, September 15 and December 15 (modified following, for the first time in December 2023) ("Termination Date"). The Investor must provide the Paying Agent with a duly completed and signed termination notice (with the information in accordance with section 5.1.13 ii. b. of the General Terms and Conditions of the Base Prospectus) no later than 10 bank working days before the Termination Date by letter mail or by email (Luzerner Kantonalbank AG Structured Products, Pilatusstrasse 12, 6003 Luzern, structuredproducts@lukb.ch). Redemption at Termination Date

The Redemption Amount is determined by the Calculation Agent on the Termination Date. The Redemption is made 5 bank working days after the Termination Date. The Issuer may extend the determination of the Redemption Amount to several days at its sole discretion if it considers this necessary due to current market conditions (such as liquidity in the Basket Components). The corresponding notification must be published at least 10 bank working days in advance. The Redemption will then be made 5 bank business days after the calculation of the Redemption Amount by the Calculation Agent.

"Disrupted Day" means any Business Day on which any relevant exchange fails to open for trading during its regular trading session or on which an event has occurred that disrupts or impairs (as determined by the Issuer and/or Calculation Agent) the ability of market participants to effect transactions in or obtain market prices for, any components of the Underlying.
