1. Product Description

LUKB Actively Managed Tracker Certificates offer Investors the opportunity to replicate the price movement of the Basket and thus to participate in its development. The risk/return profile of this Product is comparable to the risk/return profile of the Basket. The Basket consists of several components (the «Basket Components») and represents the Underlying of this Product. The Basket is **dynamic** and managed **discretionary** by the Investment Advisor during the lifetime of the Product. The Investment Advisor composes the Basket in line with the Investment Strategy at his own discretion and can amend the composition at any time. Thus, the performance of the Basket depends on the Investment Strategy pursued by the Investment Advisor and its implementation. There are no distributions to the Investor. The net dividends, net coupons resp. net distributions distributed by the Basket Components are reinvested in the respective Basket Components.

Investment Strategy

The world is changing, and the energy issue is no exception. Politicians, as well as the scientific and business communities, are looking for clean ways to produce "clean energy". Clean energy is energy that is generated from sources that do not release air pollutants. The most important aspect of clean energy is the environmental benefits as part of a global energy future. Clean, renewable resources not only conserve the world's natural resources, but also reduce the risk of environmental disasters. Many companies are working on ways to capture and store this clean energy. This basket focuses on these companies and invests broadly in a selection of these stocks.

The underlyings are selected based on the quantitative and qualitative market assessment of the Investment Advisor. The Investment Strategy does not involve leverage and is implemented in accordance with the Investment Guidelines. These guidelines provide for a maximum investment level of 100% and a weighting of the individual basket components between a minimum of 0% and a maximum of 100%. In addition, the number of basket components is between a minimum of 10 and a maximum of 40. The basket can contain a cash position. Any dividends are reinvested. The weighting is initially equally weighted, but can be adjusted.

Further information on the Investment Strategy, the Investment Guidelines and the Investment Restrictions - if available - can be obtained free of charge from the Issuer: Luzerner Kantonalbank AG Structured Products, Pilatusstrasse 12, 6003 Lucerne, Email: structuredproducts@lukb.ch.

Underlying Universe

The title universe consists of global companies, which the Investment Advisor selects as part of the implementation of the Investment Strategy. Equity securities such as shares, participation certificates, profit-sharing certificates, Exchange Traded Funds (ETFs) and Collective investment schemes that are listed or admitted to trading on SIX Swiss Exchange or on a foreign securities exchange with equivalent regulation are permitted as underlying instruments. Additionally, permitted are structured products listed or admitted to trading on SIX Swiss Exchange. In addition to the above underlyings, a Cash Position is used as a Basket Component and is included in the Basket. The Cash Position is in the currency of the product. The Cash Position does not bear interest, however the Issuer reserves the right to charge negative interest rates in the future. The cumulative share of the Cash Position and the debt securities may not exceed 50% of the product value. At the discretion of the Investment Advisor, the FX risk can be hedged against its certificate currency with automated FX swaps on a daily rollover basis (Spot/Next). Any PnL derived from this hedging activity will be considered in the determination of the Redemption Amount.

Implementation of the Investment Strategy

The Investment Advisor is solely responsible for the implementation and compliance of the Investment Strategy and decides solely on the composition and reallocation (rebalancing) of the Basket. The Issuer has no obligation to monitor this, but reserves the right to refuse to accept a new Basket Component by the Investment Advisor without giving any reasons.

Income treatment

The net dividends, net coupons resp. net distributions received by the Issuer in relation to one of the Basket Components are reinvested in the respective Basket Component on the date received by the Issuer.

Current composition of the Basket

The current composition of the Basket can be obtained from the Issuer at any time or can be found on the Issuer's website at structuredproducts.lukb.ch.

Issuer Call

The Issuer has the right to terminate all outstanding Products for the purpose of early redemption without giving any reason on a quarterly basis on February 14, May 14, August 14 and November 14 (modified following, for the first time in November 2023) ("Termination Date"). For further information on the Issuer Call, please refer to Section 5.1.13 of the General Terms and Conditions of the Base Prospectus.

Extraordinary right of termination of the Issuer

If changes in the Basket are planned or have already been made, which, in the sole opinion of the Issuer, are such that a continuation of the Products does not appear appropriate, the Issuer has the right to terminate at any time all outstanding Products for the purpose of early redemption without giving any reason on a freely determined Termination Date.

The corresponding notification must be published as soon as possible, stating the Termination Date.

Investor Put

Subject to prior notice by the Issuer, each Investor has the right to terminate its Products on a quarterly basis on February 14, May 14, August 14 and November 14 (modified following, for the first time in November 2023) ("Termination Date"). The Investor must provide the Paying Agent with a duly completed and signed termination notice (with the information in accordance with section 5.1.13 ii. b. of the General Terms and Conditions of the Base Prospectus) no later than 10 bank working days before the Termination Date by letter mail or by email (Luzerner Kantonbank AG Structured Products, Pilatusstrasse 12, 6003 Luzern, structuredproducts@lukb.ch). By submitting the termination notice, the Investor undertakes not to transfer the terminated Products. If the Investor has deposited the Products at a third bank (custodian bank), he must also inform them in good time about the exercise of the termination.

Redemption at Termination Date

The Redemption Amount is determined by the Calculation Agent on the Termination Date. The Redemption is made 5 bank working days after the Termination Date. The Issuer may extend the determination of the Redemption Amount to several days at its sole discretion if it considers this necessary due to current market conditions (such as liquidity in the Basket Components). The corresponding notification must be published at least 10 bank working days in advance. The Redemption will then be made 5 bank business days after the calculation of the Redemption Amount by the Calculation Agent.

Notices / Adjustments

The Terms and Conditions of this Product may be subject to Adjustments over the lifetime of this Product (e.g. due to Corporate Actions). Notices with respect to Adjustments and all other notices to Investors shall be made on the website of the Issuer at structuredproducts.lukb.ch/services/notices or any successor website. With the valor search function (Valorensuchfunktion) such Products can be located. If this Product is listed on an Exchange, the notices will be published

in accordance with the rules issued by the relevant Exchange on the relevant Exchange website.

Market Disruption Event

If the Issuer and/or the Calculation Agent determines, in its reasonable discretion, that a day relevant for the determination of the price of one or some of the components of the Underlying (each an "Affected Component") is a Disrupted Day then the Issuer and/or the Calculation Agent shall determine the relevant price of the Affected Component in its reasonable discretion taking into account established market practice, including, but not limited to, using the most recently traded price or a fair value established at its sole discretion.

"Disrupted Day" means any Business Day on which any relevant exchange fails to open for trading during its regular trading session or on which an event has occurred that disrupts or impairs (as determined by the Issuer and/or Calculation Agent) the ability of market participants to effect transactions in or obtain market prices for, any components of the Underlying.

The Product Documentation does not constitute, and may not be used for the purposes of, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation.

**Prohibition of Offer to Private Clients
in Switzerland**
