## 1. Product Description

LUKB Actively Managed Tracker Certificates offer Investors the opportunity to replicate the price movement of the Basket and thus to participate in its development. The risk/return profile of this Product is comparable to the risk/return profile of the Basket. The Basket consists of several components (the «Basket Components») and represents the Underlying of this Product. The Basket is **dynamic** and managed **discretionary** by the Investment Advisor during the lifetime of the Product. The Investment Advisor composes the Basket in line with the Investment Strategy at his own discretion and can amend the composition at any time. Thus, the performance of the Basket depends on the Investment Strategy pursued by the Investment Advisor and its implementation. This Product provides variable annual payments as compensation for the sum of the proportional net dividends, net coupons resp. net distributions paid by the Basket Components.

## PRODUCT TERMS AND CONDITIONS

<b>Issuer / Lead Manager / Paying and Calculation Agent</b>	Luzerner Kantonalbank AG, Lucerne, Switzerland Rating: Standard & Poor's AA Supervisory Authority: FINMA
<b>Investment Advisor</b>	Luzerner Kantonalbank AG, Finanzanalyse, Lucerne Supervisory Authority: FINMA
<b>Investment Strategy</b>	<p>Derived from the 17 sustainability goals of the UN, various themes were defined as attractive investment areas for the AMC "Global Future Shares". The focus is for example on energy and health. The underlyings are selected based on the qualified market assessment of the investment advisor. Securities with the LUKB sustainability rating "insufficient" are not considered. This means that securities are excluded that do not sufficiently control ESG risks (laggard-out due to very poor ESG rating), that pursue business activities that violate fundamental principles of sustainability (exclusion criteria) and that seriously violate international standards. The investment strategy does not involve leverage and is implemented in accordance with the investment guidelines. These guidelines provide for a maximum investment degree of 100% and a weighting of the individual basket components between a minimum of 0% and a maximum of 100%. In addition, the number of basket components is between a minimum of 10 and a maximum of 40. The basket contains a cash position.</p> <p>Further information on the Investment Strategy, the Investment Guidelines and the Investment Restrictions - if available - can be obtained free of charge from the Issuer: Luzerner Kantonalbank AG Structured Products, Pilatusstrasse 12, 6003 Lucerne, Email: <a href="mailto:structuredproducts@lukb.ch">structuredproducts@lukb.ch</a>.</p>
<b>Underlying Universe</b>	The securities universe consists of Global companies, which the investment advisor selects as part of the implementation of the investment strategy. Equity securities such as shares, participation certificates and dividend-right certificates as well as Exchange Traded Funds (ETFs) and collective investments that are listed or admitted to trading on the SIX Swiss Exchange or on a foreign securities exchange with equivalent regulation are permitted as underlyings. In addition to the assets mentioned, a cash position may be included in the basket as a basket component. This cash position is in the currency of the product, does not bear interest and may not exceed 10% of the product value.
<b>Implementation of the Investment Strategy</b>	The Investment Advisor is solely responsible for the implementation and compliance of the Investment Strategy and decides solely on the composition and reallocation (rebalancing) of the Basket. The Issuer has no obligation to monitor this, but reserves the right to refuse to accept a new Basket Component by the Investment Advisor without giving any reasons.
<b>Minimum Investment Amount / Minimum Trading Lot</b>	1 Product or a multiple thereof
<b>Number of Products</b>	200,000 Products (with the option to increase)

## Important Additional Information

### No Offer or Advice

These Final Terms shall not be used or considered as an offer, personal recommendation or solicitation to conclude a transaction and should not be treated as giving investment advice.

### No Representation

Neither the Issuer nor any third party appointed by the Issuer, make a representation or warranty relating to any information in this Document, which is derived from independent sources.

### Issuer Estimated Value ("IEV") / Total Expense Ratio ("TER") / Distribution Fees

IEV and TER are calculated by the Issuer or any third party appointed by the Issuer, as applicable, on the Initial Fixing Date, or at the start of the Subscription Period and will not be updated during the term of the Product.

TER corresponds to the difference between the Issue Price of the Product and the IEV and is comprised of the expected issuer margin and the Distribution Fee, if any and contains also the Annual Fee. The Rebalancing Fee is not part of the TER. The Issuer margin covers amongst others the costs for the structuring, market making and settlement of the Product as well as the expected issuer revenues. The Issue Price (including IEV and TER) of the Product is calculated based on internal pricing models of the Issuer.

The Issuer may sell this Product to financial intermediaries and other financial institutions at a discount to the Issue Price or reimburse a certain amount of the Issue Price to them ("Distribution Fees"). Distribution Fees, if any, are disclosed in section 1 of this document and reflect the maximum amount a financial intermediary or financial institution may receive from the Issuer; the actual amount may be lower. Detailed information is available on request.
