LUKB Actively Managed Tracker Certificates offer Investors the opportunity to replicate the price movement of the Basket and thus to participate in its development. The risk/return profile of this Product is comparable to the risk/return profile of the Basket. The Basket consists of several components (the "Basket Components") and represents the Underlying of this Product. The Basket is **dynamic** and managed **discretionary** by the Investment Advisor during the lifetime of the Product. The Investment Advisor composes the Basket in line with the Investment Strategy at his own discretion and can amend the composition at any time. Thus, the performance of the Basket depends on the Investment Strategy pursued by the Investment Advisor and its implementation. This Product provides variable annual payments as compensation for the sum of the proportional net dividends, net coupons resp. net distributions paid by the Basket Components.

Investment Strategy

With global population growth and finite natural resources, there is a pressing need to enhance agricultural production efficiency while ensuring environmental sustainability. Innovative solutions are being developed and implemented to help farmers achieve this goal, this is Smart Farming. The LUKB Actively Managed Tracker-Certificate on the Smart Farming Basket is an investment opportunity that allows investors to participate and benefit from the modernization of agriculture. It focuses on companies that are driving technological advancements in farming infrastructure and value chains, across three key domains: Robotic Equipment & Automation, AI & Data Analytics, and Biologicals & Additives.

The underlyings are selected based on the proprietary Innovation scoring system of the Investment Advisor, The Singularity Group. The Investment Strategy does not involve leverage and is implemented in accordance with the Investment Guidelines. These guidelines provide for a maximum investment level of 100% and a weighting of the individual basket components between a minimum of 0% and a maximum of 100%. In addition, the number of basket components is between a minimum of 10 and a maximum of 30. The basket can contain a cash position. The weighting is initially equally weighted, but can be adjusted.

Further information on the Investment Strategy, the Investment Guidelines and the Investment Restrictions - if available - can be obtained free of charge from the Issuer: Luzerner Kantonalbank AG Structured Products, Pilatusstrasse 12, 6003 Lucerne, Email: structuredproducts@lukb.ch.

Underlying Universe

The Investment Advisor assesses the selection of the Underlyings for their sustainability based on its own assessment and is solely responsible for compliance with the sustainability criteria. The Issuer does not review the selection of the Underlyings for sustainability.

Equity securities such as shares, participation certificates and profit-sharing certificates that are listed or admitted to trading on SIX Swiss Exchange or on a foreign securities exchange with equivalent regulation are permitted as underlying instruments.

In addition to the assets mentioned, a cash position may be included in the basket as a basket component. This cash position is in the currency of the product, does not bear interest and may not exceed 10% of the product value.

Implementation of the Investment Strategy

The Investment Advisor is solely responsible for the implementation and compliance of the Investment Strategy and decides solely on the composition and reallocation (rebalancing) of the Basket. The Issuer has no obligation to monitor this, but reserves the right to refuse to accept a new Basket Component by the Investment Advisor without giving any reasons.

For further information on the Issuer Call, please refer to Section 5.1.13 of the General Terms and Conditions of the Base Prospectus.

Extraordinary right of termination of the Issuer

If changes in the Basket are planned or have already been made, which, in the sole opinion of the Issuer, are such that a continuation of the Products does not appear appropriate, the Issuer has the right to terminate at any time all outstanding Products for the purpose of early redemption without giving any reason on a freely determined Termination Date.

The corresponding notification must be published as soon as possible, stating the Termination Date.

Investor Put

Subject to prior notice by the Issuer, each Investor has the right to terminate its Products on a quarterly basis on January 03, April 03, July 03 and October 03 (modified following, for the first time in January 2025) ("Termination Date"). The Investor must provide the Paying Agent with a duly completed and signed termination notice (with the information in accordance with section 5.1.13 ii. b. of the General Terms and Conditions of the Base Prospectus) no later than 10 Business Days before the Termination Date by letter mail or by email (Luzerner Kantonalbank AG Structured Products, Pilatusstrasse 12, 6003 Luzern, structuredproducts@lukb.ch). By submitting the termination notice, the Investor undertakes not to transfer the terminated Products. If the Investor has deposited the Products at a third bank (custodian bank), he must also inform them in good time about the exercise of the termination.

Redemption at Termination Date

The Redemption Amount is determined by the Calculation Agent on the Termination Date. The Redemption is made 5 bank working days after the Termination Date. The Issuer may extend the determination of the Redemption Amount to several days at its sole discretion if it considers this necessary due to current market conditions (such as liquidity in the Basket Components). The corresponding notification must be published at least 10 bank working days in advance. The Redemption will then be made 5 bank business days after the calculation of the Redemption Amount by the Calculation Agent.

Notices / Adjustments

The Terms and Conditions of this Product may be subject to Adjustments over the lifetime of this Product (e.g. due to Corporate Actions). Notices with respect to Adjustments and all other notices to Investors shall be made on the website of the Issuer at structuredproducts.lukb.ch/services/notices or any successor website. With the valor search function (Valorensuchfunktion) such Products can be located. If this Product is listed on an Exchange, the notices will be published in accordance with the rules issued by the relevant Exchange on the relevant Exchange website.

Market Disruption Event

If the Issuer and/or the Calculation Agent determines, in its reasonable discretion, that a day relevant for the determination of the price of one or some of the components of the Underlying (each an "Affected Component") is a Disrupted Day then the Issuer and/or the Calculation Agent shall determine the relevant price of the Affected Component in its reasonable discretion taking into account established market practice, including, but not limited to, using the most recently traded price or a fair value established at its sole discretion.

"Disrupted Day" means any Business Day on which any relevant exchange fails to open for trading during its regular trading session or on which an event has occurred that disrupts or impairs (as determined by the Issuer and/or Calculation Agent) the ability of market participants to effect transactions in or obtain market prices for, any components of the Underlying.
