## 1. Product Description

LUKB Actively Managed Tracker Certificates offer Investors the opportunity to replicate the price movement of the Basket and thus to participate in its development. The risk/return profile of this Product is comparable to the risk/return profile of the Basket. The Basket consists of several components (the "Basket Components") and represents the Underlying of this Product. The Basket is **dynamic** and managed **discretionary** by the Investment Advisor during the lifetime of the Product. The Investment Advisor composes the Basket in line with the Investment Strategy at his own discretion and can amend the composition at any time. Thus, the performance of the Basket depends on the Investment Strategy pursued by the Investment Advisor and its implementation. There are no distributions to the Investor. Any net dividends, net coupons resp. net distributions distributed by the Basket Components are allocated to the Cash Position.

Thereafter Potential Investors should consider the additional risk factors in the Base Prospectus.

<b>Issuer Risk</b>	Investors in this Product bear the Issuer Risk. Potential Investors should therefore be aware that they are exposed to the credit risk of the Issuer. Hence, Investors bear the risk that the financial situation of the Issuer could deteriorate and the Issuer of the Product may become insolvent. The Product's value is therefore not only dependent on the performance of the Underlying(s) but also on the creditworthiness of the Issuer, which may change over the term of the Product. The Issuer Rating stated in this Final Terms may be subject to change.
<b>Loss Potential</b>	This Product provides no minimum repayment amount. Therefore, Potential Investors may lose all of the invested capital.

In contrast, repurchases of Products by the Issuer on the secondary market lead to a temporary reduction of the Cash Position and to a temporary relative increase of all other Basket Components. The temporary increase/decrease of the Cash Position due to secondary market activities in the Product and the subsequently temporary relative decrease/increase of all other Basket Components may have, due to unfavorable market movements, an adverse impact on the value of the Product.</p> <p>If the available Cash Position is not sufficient to enable repurchases of Products by the Issuer on the secondary market, the Investment Advisor will inform the Issuer</p>

which Basket Component(s) is/are to be reduced. If the Investment Advisor cannot be reached in time or if he does not place an order with the Issuer, the Issuer has the right, at its discretion, to reduce one or more Basket Component(s) or to refuse to execute the secondary market sales transactions.

**Market Disruption**
