TAXATION SWITZERLAND

Swiss Federal Stamp Duty For Swiss stamp duty purpose, the Product is treated as analogous to a bond. Therefore, secondary market transactions are, in principle, subject to Swiss stamp duty (TK22). The possible Delivery of the Underlying may be subject to Swiss stamp duty.

Swiss Federal Income Tax (for private investors with tax domicile in Switzerland) For tax purposes this Product is classified as transparent, where the majority of the return of the bond part is in the form of a discount or of one payment on the Redemption Date (IUP). Therefore, for private Investors with tax domicile in Switzerland holding the Product as part of their private property, the increase of the value of the bond part (according to the "Modifizierte Differenzbesteuerung") at sale or at redemption is subject to the Federal Direct Tax. The present value of the bond part at issue is the Bondfloor per unit. An Investor who buys the Product at issuance and holds it until Redemption is taxed on the difference between the Bondfloor at the Issue Date and the Bondfloor at the Redemption Date.

However, any gain derived from the option is considered as capital gain and is therefore not subject to the Federal Direct Tax for such taxpayers.

The tax treatment regarding the cantonal and communal income taxes can differ from the tax treatment regarding the Federal Direct Tax. But in general the income tax treatments are corresponding.

Swiss Withholding Tax The Product is not subject to Swiss withholding tax.

The tax information provided herein is a non-binding summary and only provides a general overview of the potential Swiss tax consequences linked to this Product at the time of issue. Tax laws and tax interpretation may change at any time, possibly with retroactive effect.

Investors and prospective Investors are advised to consult with their tax advisers with respect to the Swiss tax consequences of the purchase, ownership, disposition, lapse or exercise or redemption of a Product in light of their particular circumstances. The Issuing Parties and the Lead Manager hereby expressly exclude any liability in respect of any possible tax implications.

Information with regards to bond floor taxation

Updated bondfloor information, if a bondfloor is applicable to the Product (according to "Product Details" and "Taxation Switzerland" herein), can be found on the following web page of the Swiss Federal Tax Administration (FTA): www.ictax.admin.ch. The Investor must be aware that for tax purposes

the value of the bond floor is converted into Swiss Francs (CHF) at inception/purchase as well as at sale/redemption of the Product, in case the Product is denominated in another currency than CHF. Thus, the Investor is exposed to the foreign exchange risk with regard to the taxable income calculation and thus also the withholding tax calculation, if applicable. However, withholding tax on the bondfloor only applies if the Bondfloor at redemption (in %) is greater than the bondfloor at issuance (in %).
