REDEMPTION

Provided that no Early Redemption has occurred, the Investor is entitled to receive the Conditional Coupon Amounts on the relevant Coupon Payment Dates, subject to the Conditional Coupon Amount provisions.

In addition the Investor is entitled to receive from the Issuer on the Redemption Date per Product:

Scenario 1	If a Barrier Event has NOT occurred, the Investor will receive a Cash Settlement in the Settlement Currency equal to: Denomination
Scenario 2	If a Barrier Event has occurred and <ul style="list-style-type: none"> a. If the Final Fixing Level of the Underlying with the Worst Performance is below the respective Initial Fixing Level, the Investor will receive a Cash Settlement in the Settlement Currency according to the following formula: Denomination × Worst Performance b. If the Final Fixing Level of the Underlying with the Worst Performance is at or above the respective Initial Fixing Level, the Investor will receive a Cash Settlement in the Settlement Currency equal to: Denomination

Initial Fixing Level	On the close: Official close of the respective Underlying on the Initial Fixing Date as calculated and published by the respective Index Sponsor and as reasonably determined by the Calculation Agent: AEX, CAC, UKX On the close: Official close of the Underlying on 31/07/2025 as calculated and published by the respective Index Sponsor and as reasonably determined by the Calculation Agent: NKY
Final Fixing Level	Official close of the respective Underlying on the Final Fixing Date as calculated and published by the respective Index Sponsor and as determined by the Calculation Agent.
Worst Performance	For each Underlying the performance is calculated by dividing its Final Fixing Level by the respective Initial Fixing Level. The Worst Performance corresponds to the lowest of all so calculated values, as determined by the Calculation Agent.
Barrier Event	A Barrier Event shall be deemed to occur if at any time on any Exchange Business Day during the Barrier Observation Period the level of at least one of the Underlyings' prices has been traded at or below the respective Barrier Level, as reasonably determined by the Calculation Agent.
Early Redemption	On each Early Redemption Observation Date, the Issuer has the right, but not the obligation to call all Products for Early Redemption on the respective Early Redemption Date. On the respective Early Redemption Date the Investor will receive a Cash Settlement in the Settlement Currency equal to the Denomination, plus the Coupon Amount, if applicable, for the respective Coupon Payment Date. No further payments will be made thereafter.
Coupon Trigger Event	A Coupon Trigger Event shall be deemed to occur, if on any Coupon Observation Date all Underlyings close at or above their respective Coupon Trigger Level, as reasonably determined by the Calculation Agent.

TAXATION SWITZERLAND

Swiss Federal Stamp Duty For Swiss stamp duty purpose, the Product is treated as analogous to a bond. Therefore, secondary market transactions are in principle subject to Swiss stamp duty (TK22).

Swiss Federal Income Tax (for private investors with tax domicile in Switzerland) For tax purposes this Product is classified as transparent, where the majority of the return of the bond part is in the form of a discount or of one payment on the Redemption Date (IUP). Therefore, for private Investors with tax domicile in Switzerland holding the Product as part of their private property, the increase of the value of the bond part (according to the "Modifizierte Differenzbesteuerung") at sale or at redemption is subject to the Federal Direct Tax. The present value of the bond part at issue is the Bondfloor per unit. An Investor who buys the Product at issuance and holds it until Redemption is taxed on the difference between the Bondfloor at the Issue Date and the Bondfloor at the Redemption Date. However, any gain derived from the option is considered as capital gain and is therefore not subject to the Federal Direct Tax for such taxpayers. The tax treatment regarding the cantonal and communal income taxes can differ from the tax treatment regarding the Federal Direct Tax. But in general the income tax treatments are corresponding.

Swiss Withholding Tax The Product is not subject to Swiss withholding tax.

The tax information provided herein is a non-binding summary and only provides a general overview of the potential Swiss tax consequences linked to this Product at the time of issue. Tax laws and tax interpretation may change at any time, possibly with retroactive effect.

Investors and prospective Investors are advised to consult with their tax advisers with respect to the Swiss tax consequences of the purchase, ownership, disposition, lapse or exercise or redemption of a Product in light of their particular circumstances. The Issuing Parties and the Lead Manager hereby expressly exclude any liability in respect of any possible tax implications.

Information with regards to bond floor taxation

Updated bondfloor information, if a bondfloor is applicable to the Product (according to "Product Details" and "Taxation Switzerland" herein), can be found on the following web page of the Swiss Federal Tax Administration (FTA): www.ictax.admin.ch. The Investor must be aware that for tax purposes the value of the bond floor is converted into Swiss Francs (CHF) at inception/purchase as well as at sale/redemption of the Product, in case the Product is denominated in another currency than CHF. Thus, the Investor is exposed to the foreign exchange risk with regard to the taxable income calculation and thus also the withholding tax calculation, if applicable. However, withholding tax on the bondfloor only applies if the Bondfloor at redemption (in %) is greater than the bondfloor at issuance (in %).

PRODUCT DOCUMENTATION

It is intended that the Products will be issued under a base prospectus as per article 45 FinSA, which has been approved by SIX Exchange Regulation AG ("**SIX Exchange Regulation**") in its capacity as Swiss Prospectus Office. Only the relevant final terms (the "**Final Terms**"), which will be available no later than on the Issue Date, together with the base prospectus of the relevant Issuance and Offering Programme (the "**Programme**") dated 19 December 2024, as supplemented from time to time (the "**Base Prospectus**") shall form the entire and legally binding documentation for the Products (the "**Product Documentation**"), and the Final Terms, together with the applicable terms and conditions for the relevant Product, ("**Conditions**"). The Final Terms will be registered with SIX Exchange Regulation in its capacity as Swiss Prospectus Office. The Final Terms should always be read together with the Base Prospectus. Definitions used in this Termsheet, but not defined herein, shall have the meaning given to them in the Final Terms and the Base Prospectus. Even though a translation into other languages might be available, only the English version of the Final Terms jointly with the Base Prospectus are legally binding.

A key information document in accordance with Regulation (EU) No 1286/2014 (the "**PRIIPs KID**") or a key information document in accordance with FinSA (the "**FinSA KID**") has been prepared in relation to the Products. The PRIIPs KID can be obtained in electronic form on www.priipkidportal.com or upon request and free of charge from the Lead Manager. The FinSA KID can be obtained upon request and free of charge from the Lead Manager. Other regulatory documents, including the target market assessment, are also available, or can be requested, from the same source.

Notices to Investors in connection with the Products shall be validly given in accordance with the Conditions. Notices to investors relating to the Issuer or the Guarantor (if any) will be published on www.bil.com and/or on the web page of the Guarantor (if any), respectively.

During the whole term of the Products, the Product Documentation can be ordered free of charge from the Lead Manager Banque Internationale à Luxembourg S.A., 69 Route d'Esch, L-2953 Luxembourg, by phone (+352 4590 3332)*. Please note that all calls made to numbers marked with an asterisk (*) are recorded. By calling such number, your consent to the recording is deemed given.

SIGNIFICANT RISKS

Prospective Investors should ensure that they fully understand the nature of this Product and the extent of their exposure to risks and they should consider the suitability of this Product as an investment in the light of their own circumstances and financial condition. Products involve a high degree of risk, including the potential risk of expiring worthless. Potential Investors should be prepared in certain circumstances to sustain a total loss of the capital invested to purchase this Product as well as the transaction costs. Prospective Investors shall consider the following important risk factors and read the section "Risk Factors" of the Programme for details on all other risk factors to be considered.

This is a structured product involving derivative components. Investors should make sure that their advisors have verified that this Product is suitable for their portfolio taking into account the investor's financial situation, investment experience and investment objectives.

The terms and conditions of the Product may be subject to adjustments during the lifetime of the Product as set out in the Programme.

Product Specific Risks: Unless this Product is capital protected, investors may lose some or all of their investment as well as the transaction costs as they are fully exposed to the performance of the Underlyings. The Product does not confer any claim to receive rights and/or payments of the Underlying, such as dividend payments, unless explicitly stated in the documentation governing the Product. Please refer to the Product Documentation as regards the further Product specific risk factors to be taken into account.

Issuer Risk: The investor is exposed to the risk that the Issuer might be unable to fulfil its obligations in respect of the product e.g. in the event of insolvency (inability to pay / over-indebtedness) or administrative order. The investor may lose all or part of their invested capital and any return. If, as part of recovery and resolution measures covering credit institutions and investment companies, the resolution authority establishes the known or foreseeable default of the issuer, it may decide to take measures impacting the value of the securities (bail-in). In this case, the investor bears the risk of losing all or part of the amount invested and any return.

Market Risk: Market risk may have a negative impact on the value of and the return on an investment in the Product. Market risk is the risk associated with the effect of changes in market factors such as interest and foreign exchange rates, equity and commodity prices, credit spreads or implied volatilities, on the value of assets and liabilities held for both the short and long term. Market risk may also lead to an early redemption of the Product (e.g. in the event of a hedging disruption).

Liquidity Risk: The Issuer or, as the case may be, a third party appointed by the Issuer, if any, intends to act as market maker in relation to the Product and it will use commercially reasonable efforts to provide indicative bid and offer prices for the Product on a regular basis under normal market conditions. However, such market maker does not have an obligation to provide prices for the Product. Liquidity of the Product in the secondary market may be limited and an active trading market for the Product may not develop. Accordingly, investors may not be able to sell their Product.

Currency Risk: If the investor's reference currency is different from the currency, in which the Product is denominated, the investor bears the currency risk between the two currencies. The fluctuations in exchange rates could have an adverse effect on the value of or return on an investment in the Product, even if the redemption amount would otherwise provide for a positive return. If the Underlyings are calculated in a currency different from the Currency of the Product, the conversion into the Currency of the Product will be carried out at the relevant exchange rate.

Early Termination and Reinvestment Risk: The Product may be redeemed prior to its maturity (be it by declaration of the issuer or as a result of certain events specified in the terms of the Product) and investors must consider that in case of such an early redemption, investors will not receive any further coupon payments after the occurrence of the early redemption and the early redemption amount may be significantly below the issue / purchase price paid and the redemption amount payable at maturity. Investors may not be able to reinvest the early redemption amount in a financial instrument with the same profit potential and additional transaction costs may be incurred as a consequence of a reinvestment of the early redemption amount.

Illiquidity of Underlying: One or, if applicable, more of the Underlyings might be or become illiquid over the lifetime of the Product. Illiquidity of an Underlying might lead to larger bid/offer spreads of the Product and/or to an extended time period for buying and/or selling the Underlying respective to acquire, unwind or dispose of the hedging transaction(s) or asset(s) or to realise, recover or remit the proceeds of such hedging transaction(s) or asset(s) which might implicate a postponed redemption or delivery and/or a modified redemption amount, as reasonably determined by the Calculation Agent.

Such selling restrictions should not be taken as definitive guidance as to whether the Products may be offered, sold or advertised in any jurisdiction.

EEA

The Products may be offered in a Member State of the EEA only – (i) to qualified investors as defined in the EU Prospectus Regulation; (ii) to fewer than 150 natural or legal persons (other than qualified investors as defined in the EU Prospectus Regulation) subject to obtaining a prior consent of the relevant bank(s) nominated by the Issuer for any such offer; or (iii) in circumstances otherwise falling within Article 1(4) of the EU Prospectus Regulation, provided in each case that no such offer shall require the Issuer, the Guarantor (if any) or the Lead Manager to publish a prospectus pursuant to Article 1 of the EU Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the EU Prospectus Regulation. For the purposes of these provisions, the expression 'offer to the public' in relation to any Products offered in a Member State of the EEA means a communication to persons in any form and by any means of sufficient information on the terms of the offer and the Products to be offered so as to enable an investor to decide to purchase or subscribe for the Products. The expression 'EU Prospectus Regulation' means Regulation (EU) 2017/1129 (as amended).
