Investment Strategy

The AMC on the Singularity US Equity Basket is an investment opportunity that allows investors to gain exposure to the core innovative companies in the US. The underlyings are selected from the 500 largest companies by market capitalization and listed on a US exchange. The selection is based on the proprietary Innovation scoring system of the Investment Advisor, The Singularity Group. The Singularity Innovation Score represents the revenue share that companies derive from innovative products and services. The Investment Strategy does not involve leverage and is implemented in accordance with the Investment Guidelines. These guidelines provide for a maximum investment level of 100% and a weighting of the individual basket components between a minimum of 0% and a maximum of 100%. In addition, the number of basket components is between a minimum of 10 and a maximum of 100. The basket can contain a cash position.

Further information on the Investment Strategy, the Investment Guidelines and the Investment Restrictions - if available - can be obtained free of charge from the Issuer: Luzerner Kantonalbank AG Structured Products, Pilatusstrasse 12, 6003 Lucerne, Email: structuredproducts@lukb.ch.

Underlying Universe

Equity securities such as shares, participation certificates and profit-sharing certificates that are listed or admitted to trading on SIX Swiss Exchange or on a foreign securities exchange with equivalent regulation are permitted as underlying instruments. The underlyings are selected by the Investment Advisor as part of the Investment Strategy implementation. In addition to the above underlyings, a Cash Position is used as a Basket Component and is included in the Basket. The Cash Position is in the currency of the product. The Cash Position does not bear interest, however the Issuer reserves the right to charge negative interest rates in the future. The cumulative share of the Cash Position and the debt securities with interest component may not exceed 50% of the product value on an annual average. At the discretion of the Investment Advisor, the FX risk can be hedged against its certificate currency with automated FX swaps on a daily rollover basis (Spot/Next). Whether and which currencies can be hedged is determined in exchange with the Issuer. Any PnL derived from this hedging activity will be considered in the determination of the Redemption Amount.

Implementation of the Investment Strategy

The Investment Advisor is solely responsible for the implementation and compliance of the Investment Strategy and decides solely on the composition and reallocation (rebalancing) of the Basket. The Issuer has no obligation to monitor this, but reserves the right to refuse to accept a new Basket Component by the Investment Advisor without giving any reasons.

The corresponding notification must be published as soon as possible, stating the Termination Date.

The Redemption Amount is determined by the Calculation Agent on the Termination Date. The Redemption is made 5 Business Days after the Termination Date. "Disrupted Day" means any Business Day on which any relevant exchange fails to open for trading during its regular trading session or on which an event has occurred that disrupts or impairs (as determined by the Issuer and/or Calculation Agent) the ability of market participants to effect transactions in or obtain market prices for, any components of the Underlying.

These Final Terms shall not be used or considered as an offer, personal recommendation or solicitation to conclude a transaction and should not be treated as giving investment advice.

No Representation

Neither the Issuer nor any third party appointed by the Issuer, make a representation or warranty relating to any information in this Document, which is derived from independent sources.

Issuer Estimated Value ("IEV") / Total Expense Ratio ("TER") / Distribution Fees

IEV and TER are calculated by the Issuer or any third party appointed by the Issuer, as applicable, on the Initial Fixing Date, or at the start of the Subscription Period and will not be updated during the term of the Product.

TER corresponds to the difference between the Issue Price of the Product and the IEV and is comprised of the expected issuer margin and the Distribution Fee, if any and contains also the Annual Fee. The Rebalancing Fee is not part of the TER. The Issuer margin covers amongst others the costs for the structuring, market making and settlement of the Product as well as the expected issuer revenues. The Issue Price (including IEV and TER) of the Product is calculated based on internal pricing models of the Issuer.

The Issuer may sell this Product to financial intermediaries and other financial institutions at a discount to the Issue Price or reimburse a certain amount of the Issue Price to them ("Distribution Fees"). Distribution Fees, if any, are disclosed in section 1 of this document and reflect the maximum amount a financial intermediary or financial institution may receive from the Issuer; the actual amount may be lower. Detailed information is available on request.
