Investment Strategy

The Bloom Capital Strategy offers diversified exposure to US and European equity markets through a vanilla portfolio of ETFs and listed equities. The strategy combines broad market participation, sector allocation and selected single-stock exposure, with active adjustments based on market conditions, valuation opportunities and macro trends. The objective is to capture capital appreciation while maintaining liquidity, transparency and portfolio diversification. The Investment Strategy does not involve leverage and is implemented in accordance with the Investment Guidelines. These guidelines provide for a maximum investment degree of 100% and a weighting of the individual Basket Components between a minimum of 0% and a maximum of 100%. In addition, the number of Basket Components is between a minimum of 5 and a maximum of 100. The Basket contains a Cash Position. The underlyings are selected based on the qualified market assessment of the investment advisor.

Further information on the Investment Strategy, the Investment Guidelines and the Investment Restrictions - if available - can be obtained free of charge from the Issuer: Luzerner Kantonalbank AG Structured Products, Pilatusstrasse 12, 6003 Lucerne, Email: structuredproducts@lukb.ch.

Underlying Universe

Equity securities such as shares, participation certificates, profit-sharing certificates and Exchange Traded Funds (ETFs) that are listed or admitted to trading on SIX Swiss Exchange or on a foreign securities exchange with equivalent regulation are permitted as underlying instruments. The underlyings are selected by the Investment Advisor as part of the Investment Strategy implementation. In addition to the above underlyings, a Cash Position is used as a Basket Component and is included in the Basket. The Cash Position is in the currency of the product. The Cash Position does not bear interest, however the Issuer reserves the right to charge negative interest rates in the future. The cumulative share of the Cash Position and the debt securities with interest component may not exceed 50% of the product value on an annual average. At the discretion of the Investment Advisor, the FX risk can be hedged against its certificate currency with automated FX swaps on a daily rollover basis (Spot/Next). Whether and which currencies can be hedged is determined in exchange with the Issuer. Any PnL derived from this hedging activity will be considered in the determination of the Redemption Amount.

Implementation of the Investment Strategy

The Investment Advisor is solely responsible for the implementation and compliance of the Investment Strategy and decides solely on the composition and reallocation (rebalancing) of the Basket. The Issuer has no obligation to monitor

this, but reserves the right to refuse to accept a new Basket Component by the Investment Advisor without giving any reasons.

For further information on the Issuer Call, please refer to Section 5.1.13 of the General Terms and Conditions of the Base Prospectus.

Extraordinary right of termination of the Issuer

If changes in the Basket are planned or have already been made, which, in the sole opinion of the Issuer, are such that a continuation of the Products does not appear appropriate, the Issuer has the right to terminate at any time all outstanding Products for the purpose of early redemption without giving any reason on a freely determined Termination Date.

The corresponding notification must be published as soon as possible, stating the Termination Date.

Subject to prior notice by the Issuer, each Investor has the right to terminate its Products on a quarterly basis on March 30, June 30, September 30 and December 30 (modified following, for the first time in June 2027) ("Termination Date"). The Investor must provide the Paying Agent with a duly completed and signed termination notice (with the information in accordance with section 5.1.13 ii. b. of the General Terms and Conditions of the Base Prospectus) no later than 10 Business Days before the Termination Date by letter mail or by email (Luzerner Kantonalbank AG Structured Products, Pilatusstrasse 12, 6003 Luzern, structuredproducts@lukb.ch). The Redemption Amount is determined by the Calculation Agent on the Termination Date. The Redemption is made 5 Business Days after the Termination Date. With the valor search function (Valorensuchfunktion) such Products can be located. If this Product is listed on an Exchange, the notices will be published in accordance with the rules issued by the relevant Exchange on the relevant Exchange website.

"Disrupted Day" means any Business Day on which any relevant exchange fails to open for trading during its regular trading session or on which an event has occurred that disrupts or impairs (as determined by the Issuer and/or Calculation Agent) the ability of market participants to effect transactions in or obtain market prices for, any components of the Underlying.
